Exam Code: 1T6-111
Exam Name: Troubleshooting and Management with Sniffer Distributed
Vendor: Network General Corp
Version: DEMO
Part: A

1: Which of the following are components of the Sniffer Enterprise Management Architecture?
A. Sniffer Distributed Agents and Sniffer Monitors
B. Sniffer Distributed Agents and Sniffer Distributed Consoles
C. Sniffer Distributed Consoles and Sniffer Monitors
D. Sniffer Distributed Agents and Switch Monitors
Correct Answers: B

2: When deploying Sniffer Distributed in your network, where should Sniffer analyzers be placed?
A. On backbones and uplinks
B. On critical ports and segments
C. On WAN connections
D. All of the above
Correct Answers: D

3: _____ is a protocol that enables software components to communicate directly over a network in a reliable, secure and efficient manner.
A. Distributed Console Out-of-Band
B. Distributed Communication Module
C. Distributed Component Object Model
D. None of the above
Correct Answers: C

4: With Sniffer Distributed RMON+:
A. Capture and decode occurs and stays at the Sniffer Distributed Appliance, not the console
B. Capture and decode does not occur
C. Has the same functionality as Expert
D. Has no support for Expert Analysis Add-on
Correct Answers: A

5: Controlling and viewing agents is the job of which of the following components?
A. Sniffer Distributed Console
B. Sniffer Distributed Agent
C. Sniffer Monitor
D. Sniffer Portable Network Analyzer
Correct Answers: A

6: What protocol does the Distributed Appliance used to communicate with the console?
A. DCOM
B. SCOM
C. WCOM
D. JOCM
Correct Answers: A
7: Sniffer Distributed Agents need at least ___ adapter(s).
   A. One
   B. Two
   C. Three
   D. Four
   **Correct Answers: B**

8: Which of the following is true about RMON+?
   A. is basically the same as Expert
   B. is capable of capturing traffic but not monitoring
   C. RMON+ capture can be looked at by an agent with the Expert option
   D. B and C
   **Correct Answers: C**

9: The WAN600 (WANE) adapter provides_____ RS/V ports.
   A. 2
   B. 4
   C. 6
   D. 8
   **Correct Answers: B**

10: With Sniffer Distributed, which of the following monitor adapters are supported?
    A. 10/100 Ethernet
    B. 4-port Ethernet
    C. Token Ring
    D. All of the above
    **Correct Answers: D**

11: When configuring a Monitor adapter, disable all protocols except:
    A. TCP/IP
    B. IPX
    C. Sniffer Driver
    D. WINS
    **Correct Answers: C**

12: True or false? Full Duplex Ethernet and ATMbook are the only agents supported with pods.
    A. True
    B. False
    **Correct Answers: A**

13: What does Remote Desktop 32 enable you to do?
    A. Take remote control of the agent from any computer on the network
    B. Take remote control of the agent through a dial-in connection
C. Configure the agent from a remote workstation
D. All of the above

**Correct Answers: D**

14: There are ____ versions of Gigabit Ethernet cards.
A. 2
B. 3
C. 4
D. 6

**Correct Answers: B**

15: True or false? VirusScan is installed on all our 4.3.X Appliances.
A. True
B. False

**Correct Answers: A**

16: With Time Synchronization which server polls the Secondary Time Server?
A. Primary Time Server
B. Master Time Server
C. Designated Time Server
D. None of the above

**Correct Answers: D**

17: Which of the following is true about transport adapters?
A. Communicate with the console to control the agent
B. Send data to third party RMON applications
C. Attach to and sniff the network segment(s)
D. A and B

**Correct Answers: D**

18: Which adapter communicates with the console via IP/UDP and IP/TCP?
A. Transport
B. Monitor
C. WANE
D. LM2000

**Correct Answers: A**

19: Which of the following is true about monitor adapters?
A. Communicate with the console to control the agent
B. Send data to third party RMON applications
C. Attach to the network to gather Sniffer data
D. A and B

**Correct Answers: C**
20: Given permissions, what can the passive user in a session do?
A. Capture and generate packets
B. Capture, generate packets and manage the database
C. Capture, generate packets, manage the database and reset real time statistics
D. None of the above
Correct Answers: D
