Exam Name: Cisco Leading Virtual Classroom Instruction - Written Exam (LVCI)

Version: DEMO
QUESTION 1
Why is it beneficial for virtual classroom instructions to know approximately how much time each lesson within a virtual classroom session take?

A. Knowing how much time a lesson takes allows the instructor to adjust timelines if the participants want to go deeper or need more time.
B. Participants will pay better attention because there will be less time to review.
C. The timing of each lesson can help participants understand the relative importance of each instructional section.
D. The instructor can manage time by stopping discussions, demonstrating, and comments before the participants are finished.
E. Making effective timing decisions demonstrates leadership in the virtual classroom.

Answer: A

QUESTION 2
Which three preparation tasks help create an effective audio environment for a virtual classroom session? (Choose three)

A. Use only a wireless internet connection.
B. Know how to make your phone...
C. Work in a space that is free of background noise.
D. Hold session in the early morning.
E. Put a "training in Progress" sign on your door or desk.
F. Use an unidirectional microphone

Answer: CEF

QUESTION 3
Why is it important for evaluation strategies to be highly specific?

A. Virtual instructors might rationalize or make excuse for unmet learning objectives.
B. Different stakeholders in organization often have competing properties and agendas.
C. Management might reward or punish depending on post session behavior on the job.
D. It is important to be factual about what went well, what needs improvement, and how it will be improved.

Answer: D

QUESTION 4
Which action is most effective if you want to gauge the ability of the group to use formulas during a virtual classroom session in Microsoft Excel slide?

A. Share your application, using an expense report template; demonstrate how to input formulas in an Excel spread sheet.
B. Share your application, select a cell and type the first part of formula; ask participants to type the rest into chat.
C. Call on a participant, ask that person to verbally state what the correct formula would be; given a specific set of criteria.
D. Pass control of your desktop to a participant and ask that person to type in the correct formula; ask the group to continue.
QUESTION 5
What is a key consideration for deciding whether you should record a virtual classroom session?

A. Session recordings that are posted to a company intranet may be subject to attribute laws.
B. Participants may demand to know in advance what you plan to do with the recording.
C. Conflicts about confidentiality may cause participants to be less interactive.
D. Participants may be distracted by concerns about what their recorded voice like.

Answer: A

QUESTION 6
What are two industry best practices for timing of virtual classroom sessions? (Choose two)

A. Spend at least 5 minutes on each slide to allow cognitive load.
B. Sessions should be approximately 60 to 90 minutes in length.
C. Twenty percent of your slides should contain 80 percent of the information in the session.
D. Add 5 minutes to the agenda for every five participants that are attending your session.
E. Ensure that interactivity occurs every 5 minutes on average.

Answer: AE

QUESTION 7
Which three questions are the most appropriate to ask if your manager asks you to coordinate and schedule a virtual session that you message will conduct next week on strategic planning? (Choose three)

A. Do you want participants to be able to interact with you and each other, and if so, how?
B. Are your slides ready, and are they optimally designed (for example, following the six by six rule)?
C. Will session attendance be mandatory or optional for participants?
D. Approximately how many participants will be attending, and from where?
E. How will the learning gains or effectiveness of the session be measured?
F. Is an LMS adequate for the needs of our company, or do we need an LCMS?

Answer: EFG

QUESTION 8
What are two key reasons why you should record and critique your own presentation on to two days before facilitating an important training session? (Choose two)

A. To ensure that your communication is as clear and succinct as possible.
B. To consider two creative ways to adapt the course to an asynchronous format.
C. To become self-aware of any use of slang or colloquialisms if the session is for a global audience.
D. To determine whether the course needs to be redesigned for a global audience.
E. To show program stakeholders exactly what you will be doing.
Answer: AB

QUESTION 9
How does the use of virtual cueing devices (such as using a highlighter tool or partner) support the process of logic and learning?

A. Paves the way for social learning.
B. Helps focus attention on relevant content areas
C. Promotes discussion and collaboration
D. Engages auditory and less-visual learners

Answer: D

QUESTION 10
What are two specific challenges for instructors in the virtual classroom environment? (Choose two)

A. Instructors cannot see the body language of participants.
B. Instructors usually have too much content for the time that is allotted.
C. Participants typically have expense levels.
D. Participants can easily give their attention to more than one thing, or multitask.
E. Participants may ask unrelated or irrelevant questions.

Answer: BD
