Exam Code: 650-621
Exam Name: LCSAWALAN - Cisco Lifecycle Services Advanced Wireless
Vendor: CISCO
Version: DEMO
Part: A

1: Which of the following WLAN service components all occur in the prepare phase?
A. High-level Design, Proof of Concept, Technology Strategy Development
B. System Requirements Validation, WLAN wired Network Integration Assessment, Operations Readiness Assessment
C. Proposal Development, Customer Education, Service Assurance
D. Security Assessment, Security Administration, Staging Plan Development
Correct Answers: A

2: Which service component within the prepare phase provides a technology-focused and/or business-focused demonstration of the wireless technology solution to highlight the features and benefits?
A. High-Level Design Development
B. Customer Education
C. Technology Strategy Development
D. Proposal Delivery
E. Proof of Concept
Correct Answers: B

3: The activity of identifying the customer's support model for WLAN is part of which service component in the plan phase?
A. Operations Readiness Assessment
B. Site Readiness assessment
C. Proposal Delivery
D. Account Planning
Correct Answers: A

4: "In the wireless design phase, which service component provides a comprehensive, implementation-ready design for the customer's wireless solution?"
A. Business Plan
B. Staging Plan
C. Detailed Design Development
D. Systems Acceptance Test Plan Development
Correct Answers: C

5: Which two service components are performed during the wireless implement phase? (Choose two.)
A. Wireless Readiness Assessment
B. Project Planning
C. Site Readiness Specification
D. Systems Acceptance Testing
E. Configuration Management
Correct Answers: B D
6: Which service component within the prepare phase recommends the appropriate wireless technology to address a business requirement of the customer?
A. Account Qualification and Planning  
B. Business Case Development  
C. Technology Strategy Development  
D. Proof of Concept  
**Correct Answers: C**

7: "Analyzing the customer's WLAN design including interference and signal strength, and recommending design changes to accommodate a voice over WLAN system, are activities associated with which service component in the plan phase?"
A. WLAN Wired Network Integration Assessment  
B. Voice over WLAN Assessment  
C. Operations Readiness Assessment  
D. Security Architecture Assessment  
E. Service Assurance  
**Correct Answers: B**

8: Which wireless service component addresses issues related to originating, evaluating, and scheduling change?
A. Incident Management  
B. Change Management  
C. Configuration Management  
D. Acceptance Test Plan  
**Correct Answers: C**

9: Which activity is associated with the wireless technology assessment service component?
A. Perform Infrastructure Audit  
B. Execute Test Cases  
C. Develop Escalation Plan  
D. Develop Project Management  
**Correct Answers: A**

10: Which WLAN service component within the prepare phase assesses the customer's business and technical requirements and includes a solution value assessment?
A. Business Case Development  
B. Business Requirements Development  
C. High-Level Design Development  
D. Technology Strategy Development  
**Correct Answers: A**
